

DISCOVERY™ SERIES
POWER RACK AND HALF RACK

PRECOR®

Discovery Series Power Rack & Half Rack Features

The foundation of any facility, the Discovery™ Series DBR0610 Power Rack and DBR0611 Half Rack are the perfect tools for seasoned lifters and those new to strength training. The products' enhanced functional capabilities allow for the use of bands, chains, torso trainers, battle ropes, suspension fitness training tools and more, along with traditional Power Rack and Half Rack exercises.

- Dimensions (LxWxH): 83 x 63 x 98.5 in / 211 x 160 x 250 cm
- Weight: 612 lb / 278 kg
- Max. Lift Load Capacity: 800 lb / 363 kg
- Max. Storage Weight: 2200 lb / 1000 kg
- Storage: Ten (10) weight plate storage horns are 6.75 inches (17.2 cm) effective length each; two (2) Olympic Bar storage receptacles; two (2) Accessory Hooks
- Number of Vertical Adjustment Positions: 14
- Adjustment Increments: 4 in / 10.2 cm
- Lowest Safety Rail Height: 19.88 in / 50 cm
- Inside Width: 41.75 in / 106 cm

DBR0611 Half Rack

- Dimensions (LxWxH): 71 x 61 x 98.5 in / 180 x 155 x 250 cm
- Weight: 453 lb / 206 kg
- Max. Lift Load Capacity: 600 lb / 272 kg
- Max. Storage Weight: 2200 lb / 1000 kg
- Storage: Ten (10) weight plate storage horns are 6.75 inches (17.2 cm) effective length each; two (2) Olympic Bar storage receptacles; two (2) Accessory Hooks
- Number of Vertical Adjustment Positions: 14
- Adjustment Increments: 4 in / 10.2 cm
- Lowest Safety Rail Height: 28 in / 71.12 cm
- Inside Width: 41.75 in / 106 cm

Discovery™ Series Power Rack & Half Rack Features

Adjustable Safety Rails & Bar Catches

Adjustable safety rails and bar catches are standard on both Racks, increasing exerciser and operator confidence. The dual pin design of the bar catches and adjustable safety rails provides additional strength and stability, while also preventing the adjustable safety rails from rotating. Replaceable high impact polyurethane wear guards protect the Racks from metal on metal contact.

Weight Plate Storage

The ten weight storage horns are 6.75 inches (17.2 cm) long by 1.5 inches (3.8 cm) in diameter so they don't bind weight plates, making them easier to add or remove. The weight storage horns are situated at accessible heights and are spaced to accommodate all bumper-style plates simultaneously.

Anchor Points

Two anchor points are positioned high and four are positioned low on the Racks, with two additional anchor points included on the adjustable bar catches. All anchor points are rounded, which prevents excessive wear of bands and straps. Rounded gussets underneath the step-up platforms create unique anchor points for battle ropes.

Functional Storage

Integrated Olympic Bar and functional apparatus storage is conveniently positioned to enhance accessibility. The two vertical Olympic Bar receptacles feature a rubber bumper to protect Olympic Bar ends from metal on metal contact. The two functional storage hooks accommodate bands, chains and other training accessories.

Discovery™ Series Power Rack & Half Rack Features

Step-Up Platform

Two step-up platforms are positioned for easy access to the Chin-Up and Pull-Up stations. The platforms are dipped in a non-slip material and angled so that an Olympic Bar placed on it for front of rack exercises rolls towards the upright for a more stable storage position.

Straight Chin-Up / Pull-Up Bar

A smooth, straight Pull-Up / Chin-Up bar allows for kipping style pullups, chin-ups and muscle-ups, and serves as a convenient anchor point for suspension fitness apparatuses.

Dual Chin-Up and Pull-Up Handles

The Chin-Up / Pull-Up Handles can be easily accessed via the integrated step-up platform. Weight assisted band hooks allow for numerous chin-up and pull-up opportunities for a wide range of exercisers.

Discovery™ Series Power Rack & Half Rack Optional Accessories

Lifting Platforms

96 W x 72 D inch (243.8 x 182.9 cm) Olympic Lifting Platform with built in Rack insert. The platform is tongue and groove oak flooring with a six layer, custom water based polyurethane top coat. It features 3/4 inch (1.9 cm) high density rubber landing zones, 1/8 inch (.317 cm) steel frame, and a built in ramp with a black wrinkle powder coat finish. Lifting platforms are available in a thickness of 3" (7.6 cm). A custom logo option is available for an additional cost.

DBROP1

Band Peg Kit (pair)

Allows for the use of bands for extra resistance during benching or squatting exercises. Available on the Power Rack and Half Rack.
