TRM 835

Product Highlights

The TRM 835 combines thoughtful design and performance to deliver an exerciser experience that feels right. The TRM 835 makes it easier for you to provide a customer-focused environment. Quiet and efficient, the streamlined assembly includes diagnostic tools to increase uptime and keep operating costs down.

Product Features

P31 CONSOLE

A LED console that works harder for you, your exercisers, and your servicers. Exercisers will enjoy the well-placed speed and incline controls, as well as accessible workout options. Supercharge your servicers' efficiency by providing detailed equipment status information, reducing downtime on your fitness floor.

POWER FACTOR CORRECTION (PFC)

The highly efficient 4 HP AC motor drives are optimized with PFC for increased efficiency, improved performance, and reduced energy consumption by up to 30%.

INTEGRATED FOOTPLANT TECHNOLOGY™

Integrated Footplant Technology recognizes the exerciser's natural foot speed and matches every stride for an ultra-smooth feel that enhances the workout experience.

GROUND EFFECTS® IMPACT CONTROL SYSTEM

This patented system combines ideal cushioning, support, and stability for exercisers. Precor treadmill decks are designed to absorb more impact in the front where exercisers' feet hit the belt. Added rigidity at the back of the belt allows for a firm push-off.

ACTIVE STATUS LIGHT

To increase uptime, an external status light lets you and your staff know at a glance the operating condition of your treadmill and when to perform life-extending maintenance.
