LED Display Console

User-friendly features with an interactive LED display shows users time, distance, pulse, speed and incline. Plus Built-in speakers, audio input and convenient cell phone holder.

T25 Treadmill

The Endurance by Body-Solid T25 Treadmill combines quality, convenience and state-of-the-art design to create one of the top home-focused treadmills on the market today. Built with a 2 HP continuous duty and 4 HP peak motor, the T25 Treadmill has a speed range of 1-10 mph while also featuring 0-12% elevation and incline settings for intense, calorie-burning workouts. The T25 Treadmill quickly and easily folds while also offering transport wheels to allow expedient movement. The T25 Treadmill is constructed with large 2" diameter sealed bearing rollers, a wide 20.5" x 57" running space and a max user weight of 275 lbs. Crafted with top-of-the-line materials and precise, accurate welding, the T25 Treadmill will withstand heavy use in home, garage or basement gym settings.

Weight: 260 lbs.
Dimensions: 76"L x 36"W x 57"H
